Hello Alethea – The most appropriate speaker from IARC (International Agency for Research on Cancer) would be our former EPA/NCEA colleague Kate Guyton (GuytonK@iarc.fr). She served as responsible officer for the recent IARC meeting that evaluated glyphosate and some other pesticides ... Thanks for asking, Vince

Hi, Vincent,

Our States Risk Assessor Workgroup would like to invite a speaker from IRAC to talk about glyphosate in the next quarterly call. Can you refer a point of contact at IRAC to me?

Many thanks.

Tks & Rgds,
Alethea Tsui-Bowen

Hi
Vincent Cogliano of IRIS worked for WHO for a while. He may know someone.

Hi, Michele and Rich,

Do you have any POCs that you can refer to us?

Tks & Rgds,
Alethea Tsui-Bowen

Subject: Glyphosate

One of the topics that was proposed for our next teleconference was to have someone from IARC discuss their weight-of-evidence for glyphosate, since they concluded that there is, “*sufficient evidence of carcinogenicity*” but EPA classifies it as group E, “*evidence of non-carcinogenicity in humans*.” Do you know anyone that I could contact to discuss this issue? Please see the link below. A work group is mentioned but I can’t find any names and if I did, I likely wouldn’t know who the best contact would be.

Thanks for any help you can provide.

Sue
